Agilent Technologies
7890A GC System

Trade up to a higher level of GC reliability, productivity, and confidence

Agilent's 7890A Gas Chromatograph takes your GC to new heights with advanced separation capabilities, powerful productivity features, and self-monitoring capabilities.

For more than 40 years, Agilent GC systems have been distinguished by high reliability. Our 7890A GC continues this tradition of excellence with:

- **Industry-leading performance:** 5th-generation electronic pneumatics control (EPC) and digital electronics raise the bar on retention time repeatability and makes the 7890A Agilent's most dependable GC ever.
- **Higher productivity:** Faster cool down, robust backflush, and advanced automation features let you get more done in less time – at the lowest cost per sample.
- **Expanded chromatographic potential:** A flexible EPC design enables sophisticated hydrocarbon analyses, and an optional 3rd detector lets you run more types of analyses on a single GC.
- **Easier operation:** User-friendly software facilitates method setup and minimizes training time, while time-saving design features simplify routine maintenance and troubleshooting.

Save 20% now!

Trade-in your functioning* 5890 or 6890 GC and receive a **20% discount** toward the purchase of a new 7890A GC system. Where applicable, customers may combine this promotion discount with an existing purchase agreement discount, up to a **maximum 30% discount**.

Visit www.agilent.com/chem/GCpromo for instant access to product videos, brochures, and Application Notes, or **contact your local Agilent Representative** for all the details of the promotion.

*If you can turn it on, you can trade it in (GC must pass self test at power-on with a functional main board.)
